

BUDPAC DECORATIVE V-GROOVED MDF PANEL

Installation Guide

NOTE: MDF V-Grooved Panels are not recommended for use in wet areas, such as bathrooms, toilets & laundries, nor external use

Budpac V-Grooved MDF Panels are designed to enhance a living space by creating that feature wall, ceiling or counter front. Budpac V-Grooved MDF Panels also restore that natural charm and beauty of our older home decor. V-Grooved MDF Panel is perfect for restoring that old villa.

- **Handling & Storage** - Panels should be protected from weather during transportation, stored in a dry, well ventilated area and supported uniformly flat on pallets.
- **Intended Use** - Wall Lining, Ceiling Lining, Counter Fronts.
- **Framing** - Panels must be supported by framing that meets the NZ Building Code.
- **Nailing** - Use 40mm x 2.0mm panel nails, placed at 150mm centres at edges and 300mm centres through the middle studs.
- **Gluing** - Optional, in conjunction with nailing as above, to the adhesive manufacturers specification.
- **Screwing** - Optional, 8g x 30mm with the same spacing as nails. Pre-drilled holes.
- **Expansion Joints** - Where the wall length is more than 5 panels wide/6m, a 3mm expansion joint every 6m filled with flexible sealant is recommended.
- **Finishing** - Do not leave in it's raw unprotected state. Fill holes with interior grade wood filler that best matches your finished colour. Lightly sand all holes and apply 2-3 coats of primer and 2 top coats. Either Paint or Polyurethane is suitable.
